

K-Love provides me with valuable information every day as well as, positive music that cannot be heard on any other station in my area.

K-Love regularly passes on information about events in my area that are not broadcast elsewhere. Community events are advertised free of charge, thus allowing many organizations in our area to reach a large number of people that otherwise may not be privy to such information. If K-Love is removed from our local Cary, NC area many citizens will be negatively impacted, in that the positive message of the station will be gone and the free events that are held in our community will not be available.

Please consider the damage that will be done to our community if you approve the LPFM broadcasting. There are no other radio stations that play such wonderful programming that is clean and morally sound. There are no "shock jocks" on K-Love and I am never in fear of what I'm going to hear on the radio when I listen to K-Love. Our Nation needs more K-Love, not less. I am asking that K-Love be allowed to continue the positive and valuable service they provide to our community.

Thank you,
Shannon Miller
